

CORNERS POST Réf.: 309650

Characteristics

MOST: for the construction of walls in blocks, bricks or other materials. Removes the use of the plumb bob and the string adjustment at each row of rubble or bricks. Allows variable angles and greater than 90 °, inside and outside. String and level support built into the post. **CHARACTERISTICS:** composed of a pole with 2 adjustable shrouds. The post and the shrouds are respectively equipped with a plate for fixing. The shrouds serve to maintain the implementation of the pole. A sliding room on the pole incorporates 2 levels and a angle adjustment system. It allows the mason to bring the system defining the angle at the top height of the row masonry to obtain, thanks to the horizontal cord, the level higher rank to build. Shrouds and sliding piece in epoxy paint. Galvanized post Delivered without cord. Packaged in a protective sheath.
