

TILE LEVELS KIT Réf.: 151610

Characteristics

Kit for levelling tiles easily while maintaining perfect spacing between tiles

Kit contents:

- 100 self-levelling 2mm spacers (ref 151528)
- 100 reusable wedges (ref 151508)
- 1 pair of pliers (ref 151608)
- 1 transport bucket

Quick and easy levelling

PERFECT AND QUICK LEVELLING

- This levelling system ensures that the tiles are perfectly level when laid.
- Prevents any unevenness from forming during laying or setting
- Ideal for laying large tiles
- Can be used for horizontal and vertical installation and for tiles from 3 to 16 mm thick

USE :

- 1- Place the spacers under the tiles when laying as you would with conventional spacers. The width of the spacer determines the width of your joint. We offer 1.5mm, 2mm and 3mm spacers.
- 2- Once your tiles are in place, insert your spacers inside the spacer bars. The special self-levelling spacer clamp will enable you to tighten all your spacers evenly. You can adjust the spacing and depth of the clamp.
- 3- Once all your clamps have been tightened, leave for 24 hours to allow the glue to set.
- 4- After 24 hours, you can remove the visible part of the spacer, using your foot or a mallet.
